PERENNIAL PLANTS  
 SPRING and FALL BULBS

I expect to have the following annual plants if I have success in the germination of the seeds. It will not be possible to tell just when they will be ready, as that depends entirely upon weather conditions, but earlier than last year. Some of the seed was planted March 1st and 10th. All plants are 15c per dozen, except as otherwise noted.

Asters, separate colors

Abronia umbellata,  
(Sand Verbena) white

Baptisia, shell pink

Browallia, purple

Calendula, lavender

Clarkia elegans,

Cineraria diamond

(Edging)

Cosmos

Gypsophilla elegans

Larkspur

Marigold, African

Marigold, French

Marigold, dwarf

Penstemon gloxinioide

Phlox, drummondii

Petunia, Howard's Star

Petunia, Rose of Heaven

Petunia, double, 5c each

Petunia, ruffled, 5c each

Petunia, Elk's Pride, 35c doz.

Petunia, balcony blue, 35c doz.

Scabiosa

Salpiglossis

Stocks

Statice spicata

Snapdragon, from seed collected in Hyde Park, England, very fine.

Verbena

I have a limited supply of the following perennials at 15c each, except as otherwise noted. R following denotes they are dwarf and suitable for the rockery.

Achillea tomentosa

Allyssum saxatil r

Armeria caespitosa r

Asphodelus luteus

Anchusia dropmore

Aquilegia canadensis

Aquilegia glandulosa

Aquilegia, long spured hybrids

The latter from June planted seed and not large, 10c.

Agrostemma (Mullein Pink)

Ampelopsis engleman, 25c

Aster coernleus, purple

Aster, St. Edgwin, pink

Aster, white

Campanula persicifolia, white or blue.

Campanula Pyramidalis

Campanula carpatica r

Campanula rotundifolia

Campanula longastyla r

Campanula Mirabilis r

Campanula pelviformis r

Campanula imeritina r

Cactus, hardy in variety

Delphinium, light & dark blue

Delphinium, Kelway's hybrids

Daisy, Elder, early

Some Delphinium from July planted seeds and are not large, 5c each.

Dianthus dentoris r

Dianthus deltoides r

Dianthus caecius r

Dianthus calocephalus r

Dianthus graniticus

Dianthus serotinus r

Dianthus squarosis r

Dianthus viscidus

Ferns, hardy, Ostrich Plume

Lady Fern & Maidenhair, 25c

Funkia subcordata, white

Gypsophilla paniculata

Gypsophilla repens r

Gailardia

Hepatica acutiloba

Hemerocallis, dwarf orange lily

Hemerocallis tall lemon lily

Helenium riverton gem

Iris, 50 named varieties

Lychnis chalcedonia

Lythrum roseum

Lily-of-the-Valley, doz. 50c

Myosotis r

Pampas grass

Playtycodon, white, blue or double.

Polemonium

Pyrethrum, blood red, 10c

Phlox divaricata r

Phlox sublata (Moss Phlox) r  
white or pink

Pansy, Steel's Mastodon, mixed  
or red and henna shades, per  
dozen 25c.

Sedum golden r

Sedum spurium r

Sedum stenopetalum, native r

Sweet William mixed

Sweet William everblooming,  
scarlet

Silene orientalis r

Thlaspi bellidifolia r

Thyme, creeper, r

Tranescantia virginica

Tunica saxifraga

Viola wermig r

Veronica amethystica

Veronica arguta

Peonies in variety in Sept.

## Bulbs

Canna roots, yellow Humbert

Canna roots, red Humbert

Canna roots, the president 15c

Caladium esculentum, Ele-  
phant's Ear, 3 in. bulb, 35c

Montbretias, 50c dozen

Richardia albomaculata 15c

This is the spotted leaf Cal-  
la and is grown same of the  
gladiolus.

Dahlias, a few good varieties,  
35c each.

Madonna lilies, in August 20c

Umbellatum lilies, in Oct. 15c

Tiger lilies, in October 15c

Regale lilies, in October 30c

I am planting seed of many varieties of rockery and other plants, the plants of which will be ready at various times from June until September. I am giving only a partial list—those with which I am somewhat familiar. Many of the others are entirely new to me and are not found in American catalogues. Most of the seed was secured in England, Austria and Switzerland. Of some kinds there will be many varieties—for instance, of Dianthus, there will be twenty. If interested in new plants, write for new list later. None of these plants will be more than 15c each. If I think the plants too small for the 15c, I will return the balance. R for rockery and V means several varieties.

Achilea r v

Aconitum r v

Aethionema r v

Alyssum r v

Anemone r v

Anthemis r v

Aquilegia v

Armeria r v

Arenaria r v
